

"Children must have at least one person who believes in them. It could be a counselor, a teacher, a preacher, a friend. It could be you. You never know when a little love, a little support, will plant a small seed of hope."

GREENLEAF HOUSE MENTAL HEALTH PROGRAM

What is the Greenleaf House Mental Health Program?

Established in 1974, and located at 346 Pine Street, Rumford, Maine the Greenleaf House is a fully licensed residential program, which serves eight adolescent boys, ages 12-17 from all regions of the State of Maine. Located in the beautiful western mountains of Maine, the program is community-based and incorporates many local resources into our services. Youth referrals are typically made through the Department of Health and Human Services and Children's Behavioral Health Services. Rumford Group Homes, Inc. is nationally accredited through the Council on Accreditation (COA). We provide the best practices at the Greenleaf House by adhering to the councils standards.

Mission Statement:

It is the mission of the Greenleaf House Mental Health Program to provide a safe, therapeutic, home-like environment to the youth we serve. We will teach the necessary skills for each youth to become responsible, contributing individuals within their families, and community.

Services Provided:

The Greenleaf Mental Health Program provides a structured daily routine that is designed to provide a safe, secure learning environment in which all youth can grow and work toward resolving their own unique issues and to accept responsibility and accountability for their behavior. Youth are provided with life skills that will have life-long benefits and help the youth move forward in his life. Qualified staff members, as well as educational and clinical professionals, work with the youth and their families with all necessary social service support personnel, to develop an individual treatment plan for each youth. The plan will address social activities and skills, life skills, community service and connections, education, including vocational and adult education, mental health counseling and family therapy when appropriate. In addition to these services, we have a Psychiatrist that comes to the program on a regular basis for medication management.

To meet the unique needs of our youth, the program has a team of dedicated professionals trained extensively in all areas of crisis/child management and mental health issues. The staff uses a team approach to provide 24-hour quality care to each resident and one-on-one individualized time to address each youth's specific needs.

Length of placement varies according to the individual needs of the youth. No arbitrary minimum or maximum length of stay has been established.

More importantly, emphasis is placed upon individual development within the group home environment.

Individual growth includes connecting youth with family, psycho-educational groups, adventure-based activities, self-esteem, anger management and gaining an understanding of their pasts and how to cope with whatever issues they face. We incorporate life skills into the daily milieu and youth can eventually transition to an efficiency apartment on Greenleaf property grounds. The youth can practice some of their life skills while receiving continuing support and guidance from our professional staff.

REFERRAL PROCESS:

To make a referral, request an application for admission or for more information, please call the Greenleaf Program at 369-9230 or e-mail at greenleaf@rumfordgrouphomes.org
